WCDS Consortium Receives Computerworld Laureate Award for Second Straight Year!!!

The WCDS CalWIN Consortium has been named as a Laureate Award winner for the second straight year in the Computerworld Honors program. The program, founded in 1988, recognizes organizations and individuals who have used information technology to promote and advance public welfare, benefit society and change the world for the better. The Consortium is being recognized for "Benefits CalWIN Online Application and Services" and joins other recipients from 23 countries as Laureates in this year's program. It was noted by Computerworld that the selection was especially competitive this year due to a significant number of nominations. All were reviewed for their benefit to society and the results of the technology applied.
