

IT Solutions Management for Human Services

an affiliate of the American Public Human Services Association

Welfare Client Data Systems (WCDS) / CalWIN Wins 2013 ISM Excellence in Human Services Information Technology Award

IT Solutions Management for Human Services (ISM), an affiliate of the American Public Human Services Association (APHSA), is an association of State, Local and Federal Government Information Systems professionals working in the Health and Human Services areas. The goal of the organization is to promote the development and operation of effective automated systems in Health and Human Services.

WCDS / CalWIN was presented the 2013 ISM Excellence in Human Services Information Technology award in the Application of New Technologies category for its CalWIN Expanded Access Program (CEAP) at this year's APHSA conference. CEAP expanded client access to new features in the CalWIN Benefits Mobile Application and MyBenefits CalWIN website. Using these products, clients are able to access their benefits whenever and wherever needed. Clients can apply for aid, check their benefit status, submit reports and renewal forms and learn more about services. In the event of a declared disaster, clients can apply for Disaster [Food] Assistance.

Congratulations to the WCDS Consortium Counties and the WCDS, First Data Corporation and HP Enterprise Services' team members for great work on the CalWIN Expanded Access Program!
