

***CalWIN wins 2013 Computerworld Laureate Humanitarian Award.***

***WCDS CalWIN Awarded 2013 Computerworld Honors Laureate – Fourth Straight Year.***

WCDS CalWIN has been awarded a 2013 Computerworld Honors Laureate, recognizing the CalWIN Benefits Mobile applications. The CalWIN Benefits Mobile applications provide a new level of service to our Counties' clients by providing mobile access to their specific case/benefit information.

This is the fourth straight year that the WCDS consortium has been recognized with a Computerworld Laureate! An excerpt from the notification letter states:

*To select this year's Laureates, we relied on a panel of 22 distinguished judges—many of them Computerworld Premier 100 IT Leader Honorees from diverse industries – to evaluate the humanitarian benefits and measurable results of applying technology to meet a specific social or business need.*

The WCDS CalWIN Benefits Mobile nomination was selected from more than 700 nominations and will be presented with a Laureate medallion inscribed with the program's missions, 'A Search for New Heroes.'

The slogan, 'A Search for New Heroes,' describes the individuals within our Counties, WCDS, First Data and HP that work tirelessly to produce quality solutions that assist our Counties to support their clients. By providing creative capabilities for our clients to self-serve, these individuals are the epitome of 'New Heroes'.

At a time when there are a multitude of other high-priority concurrent projects underway, it is an incredible accomplishment to earn this honor.

Congratulations to the WCDS Consortium, WCDS, First Data and HP for great work on the Benefits CalWIN Mobile applications.
